EXPERIENCE

Specialist Technical Analyst **Oracle** **March 2022 – Present**

- Developed analytical insights for product sales
- Predictive Model for Renewals and Replenishment of pipeline deals

  Technologies Used: ***Oracle Analytics, Keras Sequential model***

Senior Software Engineer **Tech Mahindra** **April 2020 – March2022**

- Developed Anomaly Detection system using ML techniques to recognize anomalous patterns from log based on latency, failure rate and status
- Developed Alert Correlation System to correlate and find focused alerts for quick resolution

  Technologies Used: ***Elasticsearch, Pandas, Spacy, Tensorflow, Prophet***

Senior Machine Learning Engineer **Quantiphi** **March 2019 – Feb 2020**

Worked as Data Scientist in Quantiphi for the following projects on Machine Learning, NLP and chatbots:

- **Speech Emotion Recognition:**

  Developed emotion recognition for audio files based on tone of user. Used CNN deep learning library for along with Librosa for audio classification. *Technologies used*: Python, ***Keras, Librosa, CNN***

- **Chatbots:**
  - Return merchandise authorization Chatbot
  - Qonversational AI Banking Chatbot

  Chatbot uses Google Dialogflow to classify intents and entity extraction and understand, learn and converse like a human and answer ad-hoc queries in real time. It uses Nodejs as its webhook's backend to give user specific answers like account balance and for executing actions like updating address or password. Redis provides fast and efficient database.

  Technologies used: ***Dialogflow (NLP), Node.js, Redis, NLU, Firestore, MongoDB, Typescript***

Infra Developer **COGNIZANT TECHNOLOGY SOLUTIONS** **Sept 2016-March 2019**

Worked as Data Scientist in Cognizant for the following projects on Machine Learning, NLP, API development and chatbots:

- **Machine Learning Engine**:
  - ***Recommendation system to recommend actions and blogs***

Developed Recommendation System using *User-Item Collaborative filteringbased ALS algorithm* to recommend blogs based on similarity in tastes of similar users. *Technologies used:* ***Scala, Spark MLLib***

- ***Text Summarization***

  Developed extractive automatic text summarization using *TextRank* algorithm.

  Technologies used: ***NLTK, Python***

- ***Problem Type Classification Engine***

  Engine to classify event text/description into classes, implemented using Logistic Regression algorithm as Docker Container over micro framework Flask

  Technologies used: ***Python, Flask, Docker***

- **Classification system to provide context-based actions**

  Scala project based on Apache Spark ML to provide context-based resolution for list of features and actions using *Decision Tree Algorithm*.

  Technologies used: ***SparkML, Scala, Docker***

- **Named-entity recognition** on chat messages to derive entity using SPACY *Technologies used:* ***Spacy, Python***

- **Intelligent Virtual Agent**

  Chatbot using *RASA NLU* for intent detection and entity extraction and *RASA CORE* for dialogue management and predicting next best action. *Technologies used:* ***Python, RASA***

➢ **API Engine:**

Developed RESTful APIs using Python Eve framework and SQLAlchemy for database transactions and CRUD operations. Developed Machine Learning Engine Web Services using Python Flask framework.

Technologies used: ***Python, Python Eve, SQLAlchemy, PostgresSQL***

EDUCATION

Completion Year	Degree	Institute	University/Board	CGPA/Percentage
2016	BTech - CSE	B.P.Poddar Institute Of Management And Technology, Kolkata	Maulana Abul Kalam Azad University of Technology	7.94

2012	ISC	National English School, Kolkata	CISCE	89
2010	ICSE	National English School, Kolkata	CISCE	93.4

TECHNICAL SKILLS

- **Languages** : Python, Node.js
- **Databases** : ELK, PostgreSQL, MongoDB, Redis, Cloud Firestore
- **Library / Technology** : Machine Learning, TensorFlow, Dialogflow, RASA, SparkML, Sklearn, Docker, PredictionIO, Oracle Analytics

HONORS & AWARDS

- ABOVE and BEYOND for quarter Q2 2017 for outstanding performance in Cognizant.

- Orbit Shifter (top 2% performer on Cognizant's Early Engagement training program)

I hereby declare that all the information above is true to the best of my knowledge and belief.

Ankur Jaiswal Bengaluru, Karnataka
